WELCOME

DEAR FRIENDS AND GUESTS, WELCOME TO THE ISLAND OF VITALITY!

Enjoy the fragrant island of hospitable hosts and uni que natural treasures!

Lošinj was recognised as one of the first holiday destinations on the Adriatic as early as the 19th century. Because of the climate and abundant vegetation, as well as top quality air and sea water, we continue to build Lošinj's holiday story in the 21st century!

You will realise that on every step of the way we try to justify the trust that has been given to us in the past. Many rewards and recognitions in both Croatia and abroad show it the best.

We wish you a pleasant stay on our archipelago and we are sure you will take many nice memories with you, and hopefully wish to return soon to the island of vitality!

THE ISLAND OF LOŠINJ IS A PART OF CRES-LOŠINJ ARCHIPELAGO IN THE KVARNER BAY. It comprises 36 islands, islets and rocks and its size makes it the greatest archipelago of the Adriatic.

The town of Mali Lošinj spans over the island of Lošinj, south part of the island of Cres, and islands of Susak, Unije, Ilovik, Male i Vele Srakane, as well as some islets. It comprises a total of 14 settlements: Belej, Čunski, Ilovik, Male Srakane, Mali Lošinj, Nerezine, Osor, Punta Križa, Susak, Sveti Jakov, Unije, Ustrine, Vele Srakane and Veli Lošinj. Mali Lošinj is located on the south side of Lošinj Bay and it counts about 7000 inhabitants making it the greatest insular town in Croatia. It is also an important nautical destination because the island is located on the waterway between Istria and Dalmatia. On 11th November, the locals celebrate St. Martin, the patron saint of Mali Lošinj which also marks the day of the town.

The origins of Mali Lošinj date back in the 12th century when 12 Croatian families arrived to the island. They settled on the east side of the island in St. Martin's Bay and their primary economy was based on animal husbandry and farming. With time they discovered fishing, seafaring, and shipbuilding. However, it wasn't until the 19th century that the golden era of the island began. Thanks to the sea and seafaring, and later tourism, Lošinj turned a new page in its history.

APOXYOMENOS – CROATIAN CULTURAL PEARL

The Croatian Apoxyomenos, a great bronze statue recovered on the east coast of the Adriatic, is the most preserved such statue anywhere in the world. It was discovered by a Belgian tourist in 1996 in the deep blue sea between the islands of Vele Orijule and Lošinj. It is a unique ancient bronze statue from either 2nd or 1st century B.C. by an unknown author, and its home is set to be Kvarner Palace in Mali Lošinj.

NATURAL CHARACTERISTICS AND...

POSITION

In the ancient times the islands of Cres and Lošinj were one island with common name Apsyrtes according to the legend of the Argonauts. The Romans dug through the island at its narrowest point, near Osor, in order to facilitate access to the open sea. Today there is a bridge connecting Cres and Lošinj.

AREA

By its size, Lošinj is one of the biggest islands in the Adriatic. Its total area is 74.37 km².

RELIEF

Relief of our island is very dynamic. The north of the island is made of calcareous cliffs, and the mountain of Osorščica with its peak Televrin of 588 m overlooks the island. The middle part of Lošinj is marked by a well-indented coast, while the south, just like the north part, is a bit higher. The coast of Lošinj is considered one of the most indented in Croatia and it is almost 113 km long. Among many bays, the biggest and the most protected is Augusta Bay, the port of Mali Lošinj. We are also proud to say that it is one of the most protected natural ports in the Adriatic and favourite among sailors.

CLIMATE

Our archipelago is one of the sunniest parts of Europe due to high insolation and low cloudiness. It means that on average we have 7 hours of sun a day, and in summer it can raise up to 10 hours.

Characteristics of Lošinj's microclimate:

- daily average summer temperature: 23.5 °C
- maximum sea temperature: 23.6 °C
- daily average winter temperature: 7.9 °C
- minimum sea temperature: 11.8 °C
- hours of sunshine a year: 2600
- humidity: between 62 % and 73 %
- pressure: between 1006 and 1014 hPa
- average number of foggy days a year with visibility less than 1 km: 4
- average wind speed: 3 Beauforts
- precipitation a year: 918 mm
- wind rose: maestral, bura i jugo

PROTECTED SPECIES

There are many protected plant and animal species on Lošinj. Our territory is home to 53 plant and 2 marine families, 6 mammals, 10 birds, 10 amphibians and reptiles and 4 butterflies. Also, we need to spotlight the always playful good dolphin; gecko – the omnipresent lodger of the old houses, and magnificent guardian of the skies – Griffon Vulture.

Characteristics of Lošinj's vegetation and sea bed:

- 1018 plant species
- 939 indigenous plant species
- 230 sorts of medicinal and edible plants
- 80 kinds of exotic plants
- 2 park-forests – Čikat in Mali Lošinj, and Podjavori in Veli Lošinj
- 95 fish kinds
- 71 kinds of crabs, shells and snails
- no poisonous snakes on the island
- one of the biggest colonies of dolphins lives near Lošinj, roughly about 150 animals.

Today it is the symbol of the island, but the thick, fragrant pine tree forest was only a dream in the 19th century. However, Prof. Ambroz Haračić, a man of vision and in love with his birthplace came up with the idea to forest the island. Thanks to him and the sailors who brought all kinds of exotic plants to the island, the green scenery has become priceless for the development of Lošinj.

DISCOVER FRAGRANCES AND TASTES OF LOŠINJ!

Fragrant months:

- January and February – lemon, orange, and tangerine
- March - rosemary, bay laurel, and eucalyptus

NATURAL BEAUTIES AND...

- April - asparagus, Lošinj onion (wild leek), and borage
- May - sage, fennel, and nettle
- June - broom, lavender, immortelle, and ribwort plantain
- July - Bougainvillea, mint, and bladder campion
- August - oleander, medlar, and fig
- September - jujube, grapes, Indian fig opuntia, and rock samphire
- October - myrtle, strawberry tree, dandelion, and pomegranate
- November - olive, dog rose, and quince
- December - pine tree, agave, and prickly juniper

WHAT TO DO?

If you love active holidays, then you are in the right place because Lošinj offers plenty of activities!

WALKING AND CYCLING

An activity you can do wherever you want – on Lošinj, Cres or one of smaller islands of the archipelago. Each route is interesting and full of beauties that could easily take you off the track, so be careful. More than 220 km of walking paths on five islands are split into two groups – paths by the sea and easier and more difficult walking paths. The maps can be found on our website, in Tourism Office or tourist agencies around the island.

HIKING AND CLIMBING

There is only one mountain on the island - Osorščica with its peak Televrin (588 m). Its beauty was recognised in 1887 by Austro-Hungarian heir Rudolf Habsburg, so why shouldn't you see it for yourselves? If you climb to the top, the view of the whole Lošinj archipelago and islands of Rab, Pag, and Silba will mesmerise you. In nice weather, it is

possible to see the coast of Istria and Velebit mountain. You can have a break and freshen up in St. Gaudentius mountain lodge named after a medieval bishop and saint from Osor. The lodge is open every day in summer except Mondays, during the winter for weekends and holidays only, and by reservation.

If you like extreme sports, 30 minutes away from the mountain lodge St. Gaudentius there are 30 routes of difficulty level of 4 to 8, and the maximum length of 30 m. All you need is a bit of adventurous spirit, equipment, and basic knowledge. If you are a beginner, an instructor at the mountain lodge will help you and the equipment can be rented there too. There are two ways to Osorščica – from Osor of Nerezine.

DIVING

It would be a sin to spend time on Lošinj and not dive below the surface, especially in our sea. Lošinj's seabed fascinates divers from around the world because of its attractive locations. Why let others talk about the number of caves, underwater burrs, plains and cracks they have seen, when you can experience them too? Witness our rich

underwater flora and fauna. The following diving centres offer equipment rent and filling of the bottles, as well as excursions to the most attractive locations. You can also take a diving course at the Diver sport centre.

SAILING

This is a tradition on Lošinj. In early August "Lošinjska regata" gathers anyone who wants to sail and has a sailing boat, and "Kup Lošinja" (Lošinj Cup) is organised at the beginning of November. Both events are organised by Jugo Sailing Club which was founded in 1949. If you want to have a go at sailing, it is a perfect opportunity to take home another unforgettable memory of Lošinj.

WHAT TO DO?

SPORT FISHING AND ANGLING

We have proven to be the best at it! In 2007 Lošinj's representative Daniel Gospić won the European champion title in Spain, and in 2010 he proved his value at home by taking the world champion title. Why not learn from the best in a place where the first underwater fishing competition was organised back in 1957?

You need to have a licence for fishing. It can be issued for a day, several days, a month or a year. You can buy it in sport fishing societies, Lošinjaska plovdba tourist agency and Cesar Shop in Mali Lošinj. It is forbidden to go fishing on the beaches and ports in summer.

HUNTING

We follow the trends so our offer includes a new sport. It is extremely popular and in recent years Lošinj has become a wanted destination for hunting because of the quality of our hunting grounds. Fowl and small game, wild boar, mouflons and fallow deer in their natural environment are a sound reason to come and try it. The season starts towards the end of the year. If the visitors have passed the hunting exam in their own country, they will receive a hunting card from the representative of the hunting grounds where the visitor will hunt for the first time that year. The hunting card is valid for a calendar year and for all hunting grounds in Croatia.

Info:

Hunting society Halmac
Vručić 33, 51554 Nerezine

EXCURSIONS

All you need is good mood to explore the beauties of our archipelago. You can visit a different village every day and enjoy its beauty. One of the best trips is by boat, but the panoramic flight over the archipelago will simply take your breath away. We also offer organised walking tours and bus trips. For more information please contact Tourism Office, any tourist agency, hotels, campsites and excursion boats in the port from 6 pm onwards.

WE RECOMMEND

Sunsets on Lošinj are absolutely divine. Walking by the sea, you soak the scent of pines and aerosol in the air, the sun is caressing your face and tingling your eyes with its warm colours, and a school of dolphins plays in the sea before you. The memory of falling in love with these beautiful creatures is a memory you can take home with you.

Friendship of Lošinj and dolphins started in the 80s when a research on good dolphins in the Adriatic was started. Soon there was a need to organise an institute for maritime research and conservation so in 1999 Blue World was set up in Veli Lošinj.

The main goal of the Blue World is maritime research and conservation and education on the need for protection of marine ecosystem and endangered species. In 2003 "Lošinj maritime educational centre" was opened, first in the Adriatic. Many guests have recognised its importance and started volunteering in the Centre to support protection of this marine mammal. You can also contribute to the research and protection of dolphins by having an eco-friendly approach and supporting environmental protection. In addition, you can join the campaign "Adopt a Dolphin". If you would like to adopt, you can do it personally in Veli Lošinj or on their website.

WE RECOMMEND

JOIN US!

Campaign for volunteers of the Blue World hopes to attract motivated people who can and want to spend two weeks in Veli Lošinj and participate actively in everyday tasks and field work. For more information please have a look at their website www.plavi-svijet.org.

The Blue World offers a package to those who adopt and the yearly magazine Akvamarin. You will also receive a photo of the dolphin whose protection you have encouraged by its adoption.

DOLPHIN DAY

We have been celebrating Dolphin Day in Veli Lošinj since 1993. Join our party on the first Saturday in August!

Discover and enjoy natural treasures and our rich history, step by step!

MALI LOŠINJ

MALO SELO, THE ORIGINAL NAME OF MALI LOŠINJ WAS FIRST MENTIONED IN 1398. At that time, the main economy of the locals were animal husbandry and farming. After centuries of agriculture, at the end of the 19th century mali lošinj expanded with 11 shipyards. Great sailors of lošinj now had a better merchant fleet than rijeka, trieste, and even venice. Because of that, lošinj developed greatly into the centre of the archipelago. Recent history of the island and the town was turbulent and marked by occupation of the neighbouring countries. Today mali lošinj is administrative and cultural centre of the island. The main industry is tourism which could have been anticipated from a town that was acknowledged as a climate sanatorium in the last century. Top quality of air and sea, rich biodiversity, islands, coves and beaches, paths and local cuisine are just some of the characteristics of our island's tourism. Its geomorphology has proven to be very attractive, meaning that it takes only 15 minutes on foot to reach each side of the island. Accommodation is possible in hotels, hostels, villas, campsites, in private apartments and rooms, and in marinas.

DON'T MISS

- **St. Martin's church** in eponymous bay from 1450. Its location is on cemetery where Glagolitics used to throne. (open from 8 am to 8 pm)
- **The parish church of the Nativity of the Virgin** and the piazza from 1696-1775. Its treasures include a great marble altar and relics of St. Romulus, with a great church tower on the piazza.
- **The church of the Annunciation of the Blessed Virgin Mary** in Čikat from 1858. It is the church of the island's fears, sighs, and tears because it used to be votive church of Lošinj's sailors and their families. Its interior is full of votive gifts, paintings of sailing ships.
- **The church of St. Nicholas** from 1875 dedicated to patron saint of sailors and travellers.
- **Monument of Ambroz Haračić** in Čikat. A botanist whose work contributed was responsible that the government of Vienna proclaimed Mali Lošinj a climatic health resort in 1892. Besides that, he was also responsible for foresting the island.
- **Čikat park-forest** with hundred years old Aleppo pine trees.
- **Lošinj villas in Čikat Bay** that capture with their beauty and beautiful gardens, just like in

the times of Austro-Hungarian Empire.

- **Ambroz Haračić Nautical School** in the form of a ship with navigating bridge built in 1975. The knowledge of navigation, whose origins in Lošinj date back to 1804, is still passed on.
- **Fritz Gallery** offering a rich art collection of Croatian and European artists.
- **Fish market** in the city centre where morning meetings of locals begin and where you can buy fresh fish from our fishermen. Open every day, in summer and on Sundays, from 7 am to 1 pm.

VELI LOŠINJ

A PICTURESQUE VILLAGE OF COLOURFUL FAÇADES IS LOCATED IN A NARROW BAY ON THE SOUTHEAST PART OF LOŠINJ. Numerous villas with splendid gardens built in the front row along the waterside are its characteristics. Although the meaning of the name would make anyone think that it is bigger than Mali Lošinj, it has around 1000 inhabitants. Still, the history tells us that it really used to be bigger than Malo selo. Captains, ship builders and the rich lived in Veli Lošinj, and the nobles spent their winters here. The gardens are home to more than 80 kinds of plants, while in the archduke Carl Stephen's residence, today's Sanatorium, we can find more than 200 kinds. On St. John's hill overlooking the village there is a beautiful belvedere. The little port of Rovenska attracts with its beautiful beach and Mediterranean feel. Veli Lošinj received "Blue Flower" award in 2008 for the best well-kept town in the Adriatic. The accommodation is available in hotels, hostels and villas, apartments and B&Bs, as well as in private apartments and Sanatorium.

* How to reach us – page 51

DON'T MISS

- **The parish church of St. Anthony the Hermit** in today's baroque form, built from 1767-1774 with a great contribution from sailors on Veli Lošinj. The first church was built in 1480 and its greatest treasure are numerous relics, sacral art and organs by a famous Venetian organ-builder Gaetano Callido. In the early 19th century the church was briefly a cathedral and seat of bishop Rakamarić from Osor.
- **15th century Tower** in the centre. With its thick walls, small openings and being relatively short, it protected the residents of Veli Lošinj from enemies' attacks. Its image is found on the coat of arms of Veli Lošinj, and today it is used as a museum and gallery with a replica of Apoxyomenos and images of a rich history of Lošinj's sailors.
- **Church of Our Lady of the Angels** from 1510, expanded in 1730 in baroque style. Lošinj's captains are to thank that the church today is a true little art gallery.
- **Church of St. Nicholas** from the 14th century, expanded in the 18th century. According to the legend, it was built by Byzantine monks, Basilians, after their monastery on the neighbouring islet of Palacol was destroyed.
- **Church of St. John the Baptist** from 1755 located on top of the hill overlooking Veli Lošinj and can be reached by the Way of the Cross (via cruxis) that includes three chapels. The same path

is used as a tourist track to the southernmost part of the island, and when you climb to the top, you will be mesmerised by the panoramic view in every direction.

- **Rovenska**, little fishing port with breakwater from 1856. It still serves to protect the place from full impact of waves caused by stormy bura. The cornerstone was laid by Austrian archduke Maximilian.
- **Podjavori** park-forest where the famous Lošinj climatic sanatorium is located. It used to be the villa of archduke Carl Stephen of Habsburg.
- **Lošinj maritime educational centre Blue World**

ČUNSKI

LOCATED ON A HILL ONLY 8 KM FROM MALI LOŠINJ, IT USED TO BE THE SITE OF ONE OF MANY PREHISTORIC HILL FORTS. The agriculture has been the main economy, but ancient fertile gardens and vineyards have been replaced by olive trees. Apart from agriculture and fishing, tourism has picked up in recent years. The town's biggest attraction is "torac", the only remaining oil mill on the island built in 1897. However, there is also an important spiritual retreat centre Betanija for pilgrims from all over the world. In case you need to go to Lošinj airport, turn left at Čunski on the main road coming from Mali Lošinj. Accommodation is possible in private apartments only.

* How to reach us – page 51

DON'T MISS

- **The church of St. Nicholas** from the 16th century, present form is from 1908.

SV. JAKOV

A SMALL FISHING VILLAGE ABOVE THE SEA AND NEAR NEREZINE. It is the smallest settlement on the island. It lies between two bays and is surrounded by fertile gardens and olive groves. This is the place to relax completely. Accommodation is possible in private apartments only.

* How to reach us – page 51

DON'T MISS

- **Romanesque church of St. James** at the cemetery with engraved glagolitic letters on the marble tablet above the façade, extended in 1624.
- **Parish church of Our Lady** from the 19th century, with an interesting altar painting from the 19th century.

NEREZINE

IT IS SITUATED AT THE FOOT OF OSORŠĆICA MOUNTAIN AND IT WAS MENTIONED AS A LARGER SETTLEMENT IN THE 14TH CENTURY. Nerezine experienced tourism bloom in the 19th century thanks to Austro-Hungarian heir to the throne, Rudolf Habsburg. Once farmers, the recent history sees the locals turn towards the sea – navigation, ship-building and fishing, as well as tourism, so it's no wonder that a regatta of wooden pasaras (type of boat) was held here in 1920. However, it was disrupted by the war in 1942. At the initiative of sailing club Jugo from Mali Lošinj the regatta was organised again in 1954 and along with other water games, it ran until 1965. The tradition still lives so there is a regatta every year in September where wooden pasaras compete in three categories - pasaras; guc, gajeta and leut, and batela. Everyone's invited, of course! This is why Nerezine is the best choice for those who want a mix of urban and original. Accommodation is possible in two resorts, two campsites, two family-run hotels, and in private apartments.

* How to reach us – page 51

DON'T MISS

- **Franciscan monastery** from the 16th century with renaissance three-floor tower bell.
- **Parish church of Our Lady of Good Health** from 1877. (Holy service on Sundays and holidays at 10.30 am)
- **Original parish church of St. Mary Magdalene** from 1534 and permanent art display dedicated to the traditional way of life in Nerezine conveyed through eleven models made and donated by emigrants from Nerezine, the Constantino brothers and Gaudenzio Soccoli.
- **The Draža family's tower** from the 15th century.
- **Osorščica mountaineering trail.** The peak of St. Nicholas (Mikula) with a chapel and a breathtaking view.

OSOR – MUSEUM CITY

LOCATED ON THE SOUTHWEST SIDE OF THE ISLAND OF CRES, OSOR WAS FROM ANCIENT TIMES OF EXTREME IMPORTANCE FOR THE LOCALS AND SAILORS. During that time it was called "Apsoros". The two islands met here, and today they are divided into two. It is a picturesque little city with a long history of over 4,000 years. Its walls date from different periods. You can see its turbulent past at every step so it is not without reason that we say Osor is an open-air museum. There is a plenty of evidence to witness settlement in prehistoric period. However, Osor expanded economically in ancient times and it was a very important transit point. In municipium of that time (autonomous city council) there were about 5,000 inhabitants. Compared to today's numbers, it would be as if there were 50,000 people in Osor! Now Osor is a tourist spot that attracts visitors with rich history and monuments, natural beauties, and unique musical manifestation "Osor Musical Evenings", an event that has been held every year in summer since 1976. Accommodation can be found in private apartments or two campsites.

DON'T MISS

- **Ancient town square** with valuable and preserved buildings from 15th and 16th centuries, such as Town Hall with its roofed loggia (today Town Museum) and gothic Bishop's palace.
- **The cathedral**, now the parish church of Assumption from 1498 which is one of the most beautiful renaissance monuments in Croatia. The church with three naves is considered to be work by Giorgio da Sebenico (Juraj Dalmatinac).
- **Cathedral bell tower** from 1575 by Jakov Galeta, a master craftsman from Krk.
- **Benedictine abbey with St. Peter's church** from the 11th century at the very entrance to Osor. It is our greatest Romanesque monument and the place where Osor Breviary from 1070 was found. Today it is kept in Vatican Library.
- **The chapel of St. Gaudentius** (bishop of Osor) from the 14th century, gothic.
- **Monastery and church of Our Lady of the Angels** in Bijar Bay from 1414.
- **Osor garden sculptures "Sculpture and Music"** – a row of bronze statues on the theme of music. Reproductions of great masters and the most famous Croatian sculpturers are laid in a row: Ivan Meštrović, Fran Kršinić, Vanja Radauš, Ivan Rosandić, and Belizar Bahorić. It also includes an original by Marija Ujević dedicated to musician Jakov Gotovac.
- **The Museum of Church Art in Bishop's Palace** with material from the treasury of Osor Cathedral.

In the ancient times, Cres and Lošinj were one island called Apsyrtides. It is believed that the island was dug and separated by the Romans. The archipelago got its name from Apsyrt, son of king Eet from Colchis. The king had a Golden Fleece that Jason wanted. Medea, the king's daughter and Apsyrt's sister, fell in love with Jason and with her help he got hold of the treasure. He took it to his ship Argo and together with the Argonauts he fled before the king's son. After a long voyage, Apsyrt caught up with kidnappers but Medea tricked him into negotiation, and Jason killed him. Medea then cut her brother's body into pieces and threw them into the sea. It is believed that the islands Apsyrtides grew from Apsyrt's body parts.

St. Gaudentius, patron saint of Osor, was a Benedictine monk and bishop of Osor from 1018-1042. Following a dispute between nobles of Osor and the Vatican, he was banished to Osorščica, a mountain overlooking the town where he spent a year in a dark cave full of snakes. He begged for Lord's mercy to free our archipelago of poisonous snakes forever. So it was. The legend aside, there are no poisonous snakes on the island, but St. Gaudentius' cave still remains on the way to Televrin, the peak of Osorščica. Interestingly, Gaudentius fled from the island to Rome where he died in 1044. And then, one morning about a hundred years later, church bells rang on their own. A coffin was found floating in the sea below the walls and St. Gaudentius' body was in it. A little church was built to his name and he was proclaimed the patron saint of Osor.

PUNTA KRIŽA

LOCATED ON THE ISLAND OF CRES, PUNTA KRIŽA IS A SETTLEMENT AND THE NAME FOR THE SOUTHERNMOST PART OF THIS ISLAND AND IT COUNTS ABOUT 15 HAMLETS. Although the economy was based on sheep husbandry, today the locals are active in tourism. Bearing in mind the richness of fauna, it is no wonder that hunting has picked up in the last couple of years. However, this is not the only strongpoint of this destination. Punta Križa offers a rich biodiversity so it is a perfect choice for those needing peace, adventure, and true Mediterranean scenery. Accommodation can be found in private apartments, a campsite and a naturalist camp.

* How to reach us – page 51

DON'T MISS

- **The church of St. Anthony** from the 15th century.
- **Romanesque church of St. Andrew** in the cemetery built on the grounds of an older sacral building.

BELEJ

THIS LITTLE VILLAGE ON THE ISLAND OF CRES IS KNOWN TO THE LOCALS BY EXCELLENT ISLAND LAMB AND HOMEMADE HONEY. It is located in the middle of a plateau, almost half-way between Cres and Mali Lošinj so the locals mostly engage in animal husbandry. It's an excellent choice for anyone who wants to spend their holidays in pristine nature. Accommodation possible in private apartments only.

* How to reach us – page 51

DON'T MISS

- **Parish church of St. George** with wooden baroque statues of St. George and St. Roch (Roko).
- **Picturesque Koromačno Bay** that will charm you with its beautiful beach

USTRINE

SETTLEMENT OF SHEPHERDS AND FISHERMEN, LOCATED ON THE WESTERN SIDE OF THE ISLAND OF CRES, 150 M ABOVE THE BEAUTIFUL VELI ŽAL BAY. The original settlement dates back in the time of Ancient Rome and it witnessed by much evidence. This is a true holiday spot for anyone wanting to get away from the busy city life. Accommodation possible in private apartments only.

* How to reach us – page 51

DON'T MISS

- **Romanesque church of St. Martin** with remains of a Roman villa.

WHERE TO SAIL?

The archipelago is our treasure. Let's preserve it, love it, and be proud of it!

FERTILE UNIJE

THE ISLAND OF UNIJE, LOCATED EAST FROM THE ISLAND OF LOŠINJ, WAS POPULATED IN THE ANCIENT TIMES TO WHICH PRE-ROMAN CITADELS, WELLS AND VILLAS WITNESS. The name of the island derives from Greek word "heneios" and Latin "nia" which means field. The island was known during the Roman Empire for its fertile ground and olives. Also, it is characterised by a well-preserved Mediterranean architecture. Although second largest island of Lošinj archipelago, there are no cars, hotels or campsites. Accommodation is possible in private apartments only.

* How to reach us – page 51

DON'T MISS

- **A big kamenica (stone vessel for storing olive oil)** from 1676 with glagolitic inscription.
- **Church of St. Andrew** from 1911 with bell tower from 1857.
- **Gallery and olive oil mill "Torac"**

SANDY SUSAK

THE ISLAND OF SUSAK IS UNIQUE IN THE ADRIATIC BECAUSE OF MANY THINGS. The island occurred very early on the nautical charts, first under the Roman name of "Sansacus" ili "Sanseguš", which probably derives from Greek "sampsychon" meaning marjoram. Geologically it is different from other Croatian islands because it was formed from the sand deposited on a limestone plate. It is interesting that the island has two villages – Gornje (upper) and Donje (lower). The traces of Gornje selo go back to the Roman times, and Donje selo was built later, during the bloom of wine growing by the late 19th century. It is interesting to mention that during the 60s of the 20th century a great number of people left the island for the United States, a total of 1395 people emigrated. It is estimated that today, and mostly in the state of New Jersey, around 2500 people from Susak live there. Because of that, since 1985 we celebrate Immigrants' Day on the last Sunday of July. Susak used to be known for its indigenous wine sort – trojiščina and its skilled sailors. The biggest treasure of today's Susak is the archaic language protected as cultural heritage. Apart from that, there are specific customs and beautiful folk costume in lively colours. There are no cars on the island, hotels or campsites. Accommodation is possible in private apartments only.

* How to reach us – page 51

WHERE TO SAIL?

TRY IT!

You probably weren't aware that Susak is a well-known natural sanatorium. Austrian physician Ernest Mayerhofer introduced the therapeutic benefits of the island to Europeans. In the early 20th century, Susak was famous for the treatment of children with respiratory difficulties, allergies, infectious and skin diseases. However, from the second half of the 20th century until this day, the island has become popular with couples fighting infertility. The reason for this are beneficial properties of the sand in Bok Bay. We like to believe that some of them have found a solution to their problems on Susak and finally made their dream come true to become parents.

DON'T MISS

- **Benedictine abbey of St. Nicholas** in Gornje selo from the 11th century. "Veli Bouh" (Big God) crucifix from the 12th century can be found inside. The legend says that the sea brought it to the island, the Benedictines put it in the church and it was never again taken out.
- **Cemetery in Gornje selo** – a quiet oasis in summer when the sun lights the tombstones

ILOVIK – ISLAND OF FLOWERS AND LONGEVITY

LOCATED SOUTH FROM THE ISLAND OF LOŠINJ, ILOVIK IS KNOWN IN THE FIRST HAND BECAUSE OF THE FLOWERS AND ADULT EUCALYPTUS TREES. A sea channel divides the island from the islet of St. Peter that is also specific. This little island is known for Benedictine abbey of St. Peter from the 11th century, but its cemetery also. Ilovik doesn't have its own cemetery but it is located on St. Peter. It is surrounded by walls thought to be remains of an old Benedictine monastery. In recent times, Ilovik has been recognised in Croatia as a place of oldest inhabitants – the life expectancy here is 95 years and it was supported by Dan Buettner, National Geographic reporter who worked on his research for seven years. The earliest records of the island's name "Neumae Insulae" date back in 1071. This island is favourite with sailors, but with other guests searching for peace and pristine nature. There are no cars on the island, hotels or campsites. Accommodation is possible in private apartments only.

* How to reach us – page 51

WHERE TO SAIL?

DON'T MISS

- **Underwater archaeological location** (for more information, contact diving centres in Mali Lošinj)
- **Ruins of early medieval church of St. Andrew** in Sićadrija
- **Square tower** from 1597 on St. Peter's island built by the Venetians to protect the ships from pirate attacks

MALE I VELE SRAKANE

BETWEEN THE ISLANDS OF UNIJE AND SUSAK THERE ARE TWO ISLETS – VELE (BIG) AND MALE (SMALL) SRAKANE. Only Vele Srakane are populated, but in winter they count only eight residents. There are a few houses on Male Srakane but this islets liven up in summer. The only remaining attractions on the islands are churches – St. Anne's church on Vele Srakane, and church of Our Lady of Carmelites on Male Srakane. These are the only days in the year when there is a holy service on the islands. If you want to spend your summer holidays on Srakane, get ready for a Robinson Crusoe-style holiday because there are no cars or any other infrastructure. The nearest shop and fresh water is a boat ride away in Mali Lošinj.

* How to reach us – page 51

DON'T MISS

- **Prehistoric citadel** on the Vela straža hill where only an old tower remains
- **Ancient Roman tombstone** on the corner of Skrivanić house on Vele Srakane

TASTE LOŠNJI!

Lošinj cuisine brings tastes and smells of the Mediterranean, and the food is prepared traditionally.

SOMETHING OLD, SOMETHING NEW, SOMETHING BORROWED, SOMETHING BLUE...Sounds familiar? We are not talking about a wedding but this does say a lot about traditional Mediterranean cuisine of Lošinj and the art of preparing delights with the gifts of nature and power of imagination.

WE HAVE INHERITED THE RECIPES FROM OUR GRANDPARENTS, we borrow natural treasures from our children, and we get an endless inspiration for dishes you will certainly enjoy from what surrounds us – deep, clear, and wide Adriatic Sea. It is a goldmine of top quality ingredients that you can taste in our restaurants. This union can be discovered in theme menus of Lošinj's captains titled "Around the World on Lošinj's Sails".

WHITEFISH AND OILY FISH, SEAFOOD, LAMB, HOMEMADE PASTA AND OLIVE OIL, together with aromas and colours of the herbs from Lošinj are the tastes you will love. Apart from whitefish and lamb, we recommend buzara, risottos and salads with wild herbs as well as octopus and squid dishes. Treat your taste buds with local cakes, liqueurs and jams prepared from Lošinj citrus fruit.

DO NOT MISS SHRIMPS on your gastronomic voyage of the archipelago. According to many famous restaurant critics, the shrimps from Kvarner Bay are the best in the world. Find out why the light red crustacean is a champion of native Croatian delicacies.

Visit our scented restaurants and taverns all over the island and spoil yourselves!

CHECK WHETHER YOU HAVE BEEN REGISTERED!

To ensure a comfortable stay and make sure you are abiding by the law, we kindly ask you to check whether you have been registered for the whole of your stay, from the day you arrive to the day you leave. All providers of accommodation services are obliged to register their guests, to possess the certificate of registration for each guest in any commercial accommodation facilities (hotels, apartment-hotels, tourist settlements, apartments, camps, boarding houses, lodgings for the night, hostels, private accommodation, marinas, etc.) and to present the same at the request of the guest.

Checking this is important and necessary particularly if you are staying in private accommodation so as to facilitate quality service, ensure your personal safety and to disable illegal operation of those hosts who are not registered to offer accommodation.

WE CARE ABOUT YOUR OPINION

In order to find out what we do well and what needs to be fixed or done differently, we engaged a mystery shopping agency in 2011 to check the quality of the service on our island. Mystery shoppers sent e-mails, telephoned and visited accommodation facilities, agencies, shops and other facilities to get an impression about the amount of information and kindness that the hosts provide. We are proud to announce that with marks of 83% we are above Croatian level. However, this result has set us a difficult task to be even better in the future in providing services to our guests. Please feel welcome to come and share your opinion confidentially because we care about it!

Info:

fax. | +385 51 233 373
e-mail | tzg-mali-losinj@ri.t-com.hr
web | www.tz-malilosinj.hr

THE SKIPPER OF A VESSEL ENTERING THE TERRITORIAL WATERS OF THE REPUBLIC OF CROATIA BY SEA IS OBLIGED TO TAKE THE SHORTEST ROUTE TO THE NEAREST PORT OPEN TO INTERNATIONAL TRAFFIC, IN ORDER TO CARRY OUT BORDER CONTROL FORMALITIES, TO OBTAIN THE RELEVANT OFFICIAL VIGNETTE (STICKER) AND FOR THE VERIFICATION OF CREW MEMBER AND PASSENGER LISTS AT THE HARBOUR MASTER'S OFFICE, OR BRANCH OFFICE.

The skipper of a vessel which is brought into Croatia by road, or which is moored in a port or in some other approved location within the Republic of Croatia, is obliged to obtain the official vignette (sticker) and to verify the list of crew members and passengers (to retain the services of a skipper if required), in the Harbour Master's Office, or a branch office, prior to setting out to sea. The vignette (sticker) must be obtained for a vessel of 3 m or more in length, as well as a vessel less than 3 m in length if its total propulsion power is 5 kW or more. The official vignette (sticker) is not obligatory for a vessel using only oars/paddles, regardless of its length (such as a kayak, beach canoe, pedal-boat or similar). The official vignette (sticker) must be displayed in a visible location on the vessel. Its period of validity is one year from the date of issue. All foreigners entering the Republic of Croatia on a foreign vessel intended for sports and recreation, and who intend to use those vessels for accommodation, are obliged to register their residence in the Republic of Croatia only in the port or harbour in which they undergo border control. If a foreigner crosses the State border at one of the road border crossings, and is transporting the vessel they intend to reside in, the marina where the vessel will be launched checks the registration. If the vessel is launched in a small port, the visitor is obliged to register personally their residence at the police station in authority of the territory. If you are an owner or user of the vessel longer than 5 m with built-in bunks, you need to pay flat rate amount of sojourn tax. The sojourn tax is paid at the Harbour Master's Office or branch office for 8, 15, 30 or 90 days, or for a year. The receipt must be kept on the vessel!

The skipper of a vessel due to sail out of the Republic of Croatia is under the must to pass border control at one of the ports open to international traffic and verify the list of crew members and passengers at the Harbour Master's Office or its branch. Having fulfilled his or her obligations, the skipper of a vessel must leave the coastal waters and the territorial waters of the Republic of Croatia by the shortest possible route.

VISITS NEARBY

LUBENICE

The village is located on the top of 378 m high cliff with a magnificent view of the open sea and an even more beautiful pebbled beach. A little village of stone houses was impossible to conquer during centuries. Today it represents a true gem of rural architecture. The original settlement was mentioned for the first time in prehistoric time, so Lubenice, just like Osor, nurtures a history of over 4,000 years and love towards classical music. Traditionally, Lubenice Musical Evenings are held here in summer. It is definitely a place that everyone should experience at least once in their lifetime!

VALUN

A quiet fishing village located in Valun Bay. It is by far best known for Valun tablet, one of the oldest glagolitic monuments in Croatia, older than Baška tablet. It originated in the 11th century and is written in glagolitics and Latin. It was a part of a tombstone found at the local cemetery of the church of St. Mark. It is kept in sacristy in St. Mary's church in Valun. And finally, Valun is famous for excellent food, especially fish so taste some during your visit!

CRES

The town of Cres is located on the western coast of the north part of the island in a well-protected bay. It is the administrative centre of the island that comprises 26 settlements. Its history dates

back to prehistoric times, but there are also plenty of monuments from other eras, especially the ancient times and renaissance. Cres is the birthplace of a great Croatian philosopher Frane Petrić and very often host to many sailing championships. The town is surrounded by olive grooves and cherry trees, and it is famous for its city walls, three town gates and city clock.

VRANA

A little village located inland used to be only a postal office but today it is interesting because Vrana Lake – the source of fresh water for the archipelago – is located beneath it. The lake is 5,5 km long and 1,5 km wide and rich in fresh-water fish. The locals are extremely pleased with the cleanness of the water. Since the lake is natural, and the source is yet to be found, there are many theories how the water comes to the island, but everyone prefers the legend. The lake is protected so walking down to its shores is not allowed without a licence.

BELI

It is one of the oldest settlements on Cres. It is located on a hill on the eastern coast of the north part of the island on the site of a prehistoric hill-fort. Beli is well known for its rich history supported by many findings, and also for its eco-centre "Caput Insulae" that promotes protection of Vulture Griffons and island's biodiversity. You will be charmed by the pebbled beach under 130 m high cliffs. Excellent choice for a trip!

IMPORTANT TELEPHONE NUMBERS IN CROATIA
